

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

October 1st-15th, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1-15, 2004.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS

<u>Documents Received on Friday, October 01, 2004</u>			
2003112102	<p>Elmwood Residential and Commercial Development Project Milpitas, City of Milpitas, San Jose, Fremont--Santa Clara Construction of 683 new residential units on 29 +/- acres and creation of 6 +/- acres of public park. This development proposal includes a request to change the land use designation of 20 +/- acres located on the west side of South Abel Street from "General Commercial" and "Parks and Open Space" to "High Density Residential." This project also includes a request to subdivide land for the proposed residential uses, three auto dealerships on 23 +/- acres and public park land.</p>	EIR	11/15/2004
2004021125	<p>1630 Stewart Street Project EIR Santa Monica, City of Santa Monica--Los Angeles Construction of a three-story building containing 22 artist live/work units and 95 parking spaces on a portion of the site that is currently a surface parking lot. Forty-seven parking spaces would be provided on the ground floor to serve the existing on-site production use, and 48 spaces would be provided in a subterranean parking level to serve the proposed project.</p>	EIR	11/15/2004
1999011068	<p>Ventura Freeway Corridor Areawide Plan Los Angeles County Agoura, Calabasas, Hidden Hills, Westlake Village--Los Angeles General plan (area plan) for a portion of Los Angeles County. (A component of the Countywide General Plan) includes Land Use Policy.</p>	FIN	
2002051116	<p>Costco Commercial Complex San Dimas, City of San Dimas--Los Angeles The proposed project includes the demolition of existing structures on-site and the construction of a Costco warehouse facility with a tire center and gasoline service station, a fast-food restaurant, a "quality" restaurant, and two retail shops.</p>	FIN	
2003081071	<p>Burbank Media Center Burbank, City of Burbank--Los Angeles The Draft EIR prepared for the proposed project evaluated five different development scenarios proposed by the applicant to provide sufficient information to allow the City to consider the type, intensity and configuration of land uses that would be appropriate for this site. The five development scenarios are described in more detail below.</p> <p>Development Scenario No. 1: This scenario consists of 674,826 square feet of development in 3-, 6-, and 11-story buildings. The proposed uses include 393,875 square feet of media-related office, 175 condominium units, a health club, a childcare facility, retail / restaurant space and a new church facility. Parking would be provided in a fully subterranean parking structure.</p> <p>Development Scenario No. 2: This scenario consists of 616,826 square feet of development in 3-, 6- and 9-story buildings. The proposed uses include 360,100 square feet media-related office, 164 condominium units, a health club, a childcare facility, retail / restaurant space and a new church facility. Parking would be provided in a fully subterranean parking structure.</p>	FIN

	Development Scenario No. 3: This scenario consists of 551,239 square feet of development in 3- and 6-story buildings. The proposed uses include 531,239 square feet media-related office space and approximately 20,000 square feet of retail/restaurant space. Parking would be provided in a fully subterranean parking structure.		
	Development Scenario No. 4: This scenario includes 651,685 square feet of development in 3-, 6- and 10-story buildings. The proposed uses in this scenario include 213,374 square feet of media-related office, 268 condominium units, a health club, a childcare facility, retail / restaurant space and a new church facility. Parking would be provided in a fully subterranean parking structure.		
	Development Scenario No. 5: This scenario includes 501,462 square feet of development in the 3-, 6- and 9-story buildings. No media-office space is proposed in Scenario 5. The proposed uses would consist of 298 residential condominium units, a health club, a childcare facility, retail / restaurant space and a new church facility. Parking would be provided in a fully subterranean parking structure. Scenario 5 would require the approval of a General Plan Amendment.		
2004101001	Diablo Canyon Power Plant (DCPP) Steam Generator Replacement Public Utilities Commission San Luis Obispo--San Luis Obispo Pacific Gas & Electric proposes to replace 8 nuclear steam generators (4 per unit, 2 units) at DCPP.	NOP	11/01/2004
2004101004	Conditional Use Permit No. 836 and Demolition No. 68 Redlands, City of Redlands--San Bernardino Conditional Use Permit No. 836 - a proposal to develop a 40-unit apartment complex on a 3.07-acre property in the R-2, Multiple Family Residential District located at the southeast corner of Grove Street and Sylvan Boulevard. Demolition No. 68 - a proposal to demolish a single-family residence and an accessory structure located at 1310 Sylvan Boulevard in the R-2, Multiple Family Residential District.	NOP	11/01/2004
2004101008	San Onofre Nuclear Generating Station (SONGS) Steam Generator Replacement Public Utilities Commission Oceanside--San Diego Southern California Edison proposes to replace SONGS 2 and 3 nuclear steam generators.	NOP	11/01/2004
2004102002	Foothill Phase II Water Treatment Plant and Pipeline Placer County Water Agency Auburn--Placer The proposed project includes the construction and operation of a new water treatment facility, a raw water transmission line, and a treated water transmission line. Implementation of the proposed project is considered a discretionary action and would require approval by the lead agency Placer County Water Agency (PCWA) under CEQA. The proposed WTP site is located approximately two miles west of Auburn, on a 35-acre parcel. Ophir Road forms the southern boundary of the proposed site, while the South Canal forms the northern boundary. The City of Auburn Wastewater Treatment Plant is also located to the north, beyond the South Canal. Industrial buildings are located to the west of the site. Land uses along the	NOP	11/01/2004

	proposed treated water transmission pipeline vary and include a variety of open space and rural residential uses.		
2004102005	RMC Pacific Materials Project EIR West Sacramento, City of West Sacramento--Yolo The proposed project includes the request for a Special Use Permit to construct and operate a cement terminal, aggregate terminal, and ready mix concrete batch plant on approximately 27 acres of vacant land adjacent to the Sacramento River Deep Water Ship Channel within the City of West Sacramento.	NOP	11/01/2004
2004102008	3575 Geary Boulevard Institute on Aging Senior Health Services Facility & Affordable Senior Housing Project (Case No. 2003.0410E) San Francisco Planning Department San Francisco--San Francisco In a joint venture, BRIDGE Housing Corporation (BRIDGE) and the Institute on Aging (IOA) are proposing to demolish the existing 33,000 GSF, 1,350-seat single-screen Coronet Theater (movie theater) and remove the adjacent 93-space surface parking lot to develop a senior health services facility and 30 group housing/transitional senior housing units, to be operated by the IOA, as well as an additional 120 affordable senior dwelling units, built by BRIDGE Housing. These uses would operate in a new six-story building totaling 177,600 GSF, with 122,143 GSF used for the group housing/transitional senior housing units and affordable senior housing units. Additionally, a one-level, 27,732-GSF, underground parking garage with 67 spaces would be provided for use by IOA staff, service providers, and residents.	NOP	11/01/2004
2002041017	Price Street Extension Caltrans #5 Pismo Beach--San Luis Obispo The City of Pismo Beach and Caltrans propose to extend Price Street as a frontage road over Pismo Creek and the Union Pacific Railroad. One bridge would be replaced and one new bridge would be constructed as part of the frontage road. Several improvements to Highway 101 are also proposed and they include a new southbound on-ramp at Dolliver Street, closure of the southbound Price Street on-ramp, and closure of the Hinds Avenue off-ramp. The overcrossing (bridge) at Hinds Avenue would be replaced with a wider structure to increase vertical clearance on the highway and improve the intersection of Hinds Avenue and Price Street. The project area extends along Highway 101 from Five Cities Drive to Dolliver Street and includes Price Street from Hinds Avenue to where it would be extended to Five Cities Drive. The James Way loop would remain open. A soundwall and retaining wall are proposed adjacent to the new frontage road (behind the recreation vehicle parks and Pismo Beach Mobile Home Park), from the railroad to Pismo Creek.	Neg	11/01/2004
2004101002	Vista Robles Tract Map ED 04-053 San Luis Obispo County Nipomo--San Luis Obispo A request by Vista Roble, LLC for a Tract Map and Conditional Use Permit to 1) subdivide a 19.18-acre parcel into eighteen clustered residential parcels ranging from 0.41 to 0.72 acres and one 10.36-acre open space parcel, and 2) construct eighteen single-family residences and one open space parcel including one 10-foot wide equestrian trail, and a 197,000-cubic foot retention pond. Access roads would include the extension of an existing road, Via Seco and proposed Road "A". The	Neg	11/02/2004

2004101010	Upland Road Improvement Camarillo, City of Camarillo--Ventura The proposed project would complete the ultimate improvements for Upland Road, joining two existing four-lane roadway sections east and west of the project limits. Improvements would mostly occur within the existing Upland Road right-of-way, and the old two-lane road directly north of the existing Upland Road. The project includes reconstruction of the roadway to provide a new four-lane roadway (two lanes in each direction), median and parkway improvements, safety lighting, utility undergrounding, drainage improvements, construction of retaining walls, provision of bicycle lanes, and minor right of way acquisition. The project would also include reconstruction of a portion of the northerly roadway section, east of San Onofre Drive to the easterly project limits, to provide a 2% superelevated cross-section. A traffic signal at Jeffrey Road / Mission Oaks Boulevard and Upland Road is proposed. These features will enhance the safety of the roadway by adding necessary capacity for the anticipated traffic demands and improve the operational conditions of the roadway. The proposed project is included in the Circulation Element of the City of Camarillo's General Plan.	Neg	11/01/2004
2004101011	Lower Otay Pump Station Otay Water District Chula Vista--San Diego The proposed project consists of the construction and operation of the Lower Otay Pump Station, as an emergency pump station for the OWD service area, and pavement of an off-site access road. The LOPS will be single-story above-ground building constructed of 8-inch by 6-inch concrete blocks with integral color walls and metal tile roofing. The building will be 24'6" in height.	Neg	11/01/2004
2004102001	2003-88 Tentative Parcel Map for John Nixon, (Calaveras Oaks, LLC) Calaveras County Planning Department --Calaveras The applicants are requesting approval to divide 28.1 +/- acres into 26 lots. The property is within the San Andreas Community Plan with a land use designation of Offices and Multi-Family Residential with current zoning CP (Professional Office).	Neg	11/01/2004
2004102003	2004-57 General Plan & Zoning Amendment & Tentative Parcel Map for Jack & Kim McMillian Calaveras County Planning Department --Calaveras A 5.0 +/- division of land into three parcels, ranging in size from 1 to 3 +/- acres.	Neg	11/01/2004
2004102004	2004-77 Tentative Parcel Map for Jose & Maria DeOmelas Calaveras County Planning Department --Calaveras A division of land, about 10.04 +/- acres, into two parcels, approximately 5 +/- acres each.	Neg	11/01/2004
2004102006	MS010001 Contra Costa County --Contra Costa A request for approval to subdivide 221.63 acres into four 40 +/- parcels with a 61.59 acre designated remainder. The site consists of Parcel A of Parcel Map 76 PM 32 & 33 (MS33-78) fronting a distance of approximately one mile on the north side of Briones Valley Road, approximately 1,000 feet west of Deer Valley Road, in the Brentwood area (A-2)(ZA:Q-22m)(CT:3551.02). 2004109015	<p>Lake or Streambed Alteration Agreement for Notification #04-0330 Forestry and Fire Protection, Department of --Humboldt</p> <p>The California Department of Fish and Game is executing a lake or streambed alteration agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. The applicant proposes three crossings for timber harvesting activities on unnamed tributaries to the Mattole River, Humboldt County.</p>	NOD	
2004109016	<p>Streambed Alteration Agreement 1600-2004-0683-3 / THP 1-02-133 MEN Forestry and Fire Protection, Department of --Mendocino</p> <p>The applicant proposes two activities associated with past logging road abandonment and proposes to repair two crossings in a Class II watercourse. Both sites involve further work to follow-up earlier crossing removals. Each site is located in Big Salmon Creek, Mendocino County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0683-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Chris Hayter, Campbell Timberlands Management, LLC.</p>	NOD	
2004109017	<p>Holly Oaks Open Space Easement Encroachment; AD 04-001 San Diego County Department of Planning and Land Use --San Diego</p> <p>The project proposes the establishment of an equestrian trail between Oak Shade Lane and Duck Pond Lane, within an existing open space easement.</p>	NOD	
2004109019	<p>Dean and Paula Ott House Atascadero, City of Atascadero--San Luis Obispo</p> <p>The proposed project is located on an ephemeral drainage that tributaries to Atascadero Creek and is located on Baranco Road, northwest of Highway 41 in Atascadero. A road was graded parallel to the drainage to provide access to a future home site. Sediment and concrete washings entered the stream along this road. Additionally, an undersized culvert and drainage inlet installed at the home site was unable to accommodate heavy flows during winter of 2004, resulting in storm water flowing overland toward the drainage which caused a large portion of the bank to fail. The proposed project would repair the bank failure by removing sediment from the site and installing approximately 225 SF of rock slope protection (RSP) along the bank. The undersized culvert and drainage inlet would be replaced with a culvert not less than 18 inches diameter in order to accommodate flows during heavy storms. The outfall of the culvert would also be lined with approximately 120 SF of RSP to minimize erosion along the bank. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0612-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Mr. Dean Ott.</p>	NOD

2002112026	Alameda County Organics Composting Facility Alameda County Waste Management Authority --Alameda The ACWMA Organics Processing Development Program consists of: (1) implementing a public/private program to develop long-term and sustainable composting services for jurisdictions in Alameda County, (2) providing an opportunity for the jurisdictions of Alameda County to divert organic wastes from landfills, and (3) developing a composting facility within Alameda County. The objective of the Program is to secure high-volume, high-quality, low-cost, long-term, in-county composting services supplied equitably to ACWMA member agencies. The ACWMA is proposing to partner with Material Recovery Industries, Incorporated (MRI) to develop a new compost facility in Alameda County on a 40-acre site within the 100 to 200 acre parcel that is located off Andrade Road south of Highway 680 in the Sunol Valley, currently owned by the San Francisco Public Utilities Commission (SFPUC). The facility would compost organic materials including, but not limited to green waste, food scraps and food contaminated paper. The facility would ultimately have the capacity to compost approximately 600 tons per day of organic materials. The facility would use the window system and the aerated static pile technology for processing organic materials.	EIR	11/17/2004
2004091159	Tijuana River Valley Regional Park Trails and Habitat Enhancement Project San Diego County San Diego--San Diego The County of San Diego is proposing to implement a Trails and Habitat Enhancement Project (Proposed Project) in the Tijuana River Valley Regional Park. The proposed project is intended to refine and permit a network of multi-use recreational trails, which will facilitate recreational access and allow for the rehabilitation of degraded natural habitats within the Tijuana River Valley Regional Park. The proposed project includes the following specific components: -Creation of a formally designated multi-use recreational trail network; -Habitat creation and restoration of approximately 60-acres including wetland, riparian and upland habitats;	NOP	11/02/2004

	<p>-Installation of a steel-truss recreational bridge crossing over the Tijuana River; -Interpretive/directional signage and benches at key areas; -Bird observation blinds and trail fencing; -Eastern trailhead staging area consisting of 2-acres along Dairy Mart Road; and, -Creation of a park management plan to guide the long-term development and management of uses and resources within the Tijuana River Valley Regional Park. Currently, there is no formal or permitted recreational trail network through the California Environmental Quality Act in the Tijuana River Valley Regional Park (TRVRP). The proposed project would utilize selected portions of existing dirt roads and pathways and includes realignments, enhancements and closures where haphazard and unplanned development of trails has resulted in habitat degradation, deterioration of the quality of natural resources, and declining recreational user experience in the TRVRP. Minimal new trails and trail linkages would be developed as part of the proposed project.</p>		
2004101014	<p>City of Ventura Comprehensive Plan Update San Buenaventura, City of Ventura--Ventura The proposed project is the update of the City of Ventura Comprehensive Plan. The Upper Sulphur Creek Ecosystem Restoration Project (proposed project) would be divided into three sub-areas: Upper, Middle and Lower Reach. Project activities would include the removal and replacement of portions of the exsiting irrigated ornamental landscaping and all invasive weedy vegetation with a mosaic of vegetation communities native to the local environment. Up to 3,600 linear feet of concrete v-ditch in the Middle and Lower Reaches would be removed to create a wider soft-bottom channel. Floodplain terraces adjacent to the channel would be created to be inundated by water during winter storms of various intensities. Invasive and ornamental elimination and concrete removal activities would differ for each of the three reaches (upper, middle, and lower reach) within the project area.</p>	Neg	11/02/2004
2004101019	<p>Carlsbad Office Campus-CT 02-12/CDP 02-31/PIP 02-04/PUD02-05 Carlsbad, City of Carlsbad--San Diego</p> <p>Request for approval of a Tentatice Tract Map, Coastal Development Permit, Planned Industrial Permit and Non-Residential Planned Development Permit for the development of 276,900 square feet of office space along with an 82,170 square foot two level parking structure. The project site is 12.71 acres in size and the new office campus will consist of four 3-story buildings, located around a central landscaped courtyard to create a campus like atmosphere. A total of 1,112 parking spaces will be provided, one half of which will be located in the two-level parking structure.</p>	Neg	11/03/2004
2004101021	<p>Rancho Cazadero - PD 04-12 Carlsbad, City of Carlsbad--San Diego</p> <p>The project consists of a grading permit for the construction of a single-family residence. The site is composed of a vacant, pre-graded, in-fill lot situated within an established neighborhood with residential development located on all sides of the subject property. The majority of the site is mostly flat with a short, steep slope from Cazadero Drive up to the graded area, and then another steep slope at the rear of the site leading up to another flat area at the rear of the property. The site appears to have been previously graded many years ago and is largely disturbed. The proposed grading will impact .08 acres of low quality, unoccupied, remnant coastal sage scrub located at the rear portion of the site and .02 acres of low quality, unoccupied disturbed coastal sage scrub located near the front of the site along the front property line.</p>	Neg	11/03/2004

2004102013	Linden Station South San Francisco, City of South San Francisco--San Mateo Conversion of a former 3-story 67,145 square foot paint manufacturing plant into offices, artist studios, retail and a 73,928 square foot outdoor storage yard. A small portion of the building was previously converted to artist studios in late 2003 and a small ground floor area was converted to a retail area for the supply of industrial gases.	Neg	11/02/2004
2004102014	4861 Scotts Valley Drive/Fox Planned Development Scotts Valley, City of Scotts Valley--Santa Cruz The applicant is proposing to subdivide a 0.44 acre parcel into four residential parcels, and construct four detached single-family homes, a new street and a common parking area. The density of the project is 9.1 units per acre, or approximately 4,792 square feet per unit (gross figures, inclusive of circulation and shared parking). The development requires a rezone from Medium-Density Residential to Medium-Density Residential/Planned Development, and a Planned Development Permit to allow variations to the Medium-High Density Residential (R-M-6) development standards. The project is best described as a "small-lot single-family development." The project includes four, 1,647 square foot, three-bedroom homes (exclusive of garages). The individual lots range in size from approximately 4,111 to 5,312 square feet. The project site is currently developed with one single-family home, which would be demolished. Two mature trees, one oak and one box elder, would be preserved. One mature oak with poor structure would be removed.	Neg	11/02/2004

	cabin. Proposed Parcel 2 will be approximately 15 acres and is currently developed with an abandoned mobile home that will be removed prior to recordation of the Parcel Map. Water services will be provided by the Fieldbrook Community Services District and sanitary service will be provided by on-site sewage disposal system.		
2004072139	Development of Well #25 on the Bell Shaped Parcel Mammoth County Water District Mammoth Lakes--Mono Development of water production well for the purpose of providing redundancy or emergency backup to the District's existing groundwater production well supplies.	NOD	
2004081077	Former Colton Manufactured Gas Plant Toxic Substances Control, Department of Colton--San Bernardino The proposed project involves the remediation of contaminated soils associated with the operation of the former Manufactured Gas Plant (MGP) at the Colton site, which was in operation between 1912 and 1947 by Southern Counties Gas Company, a predecessor to The Gas Company. Remedial activities include the following: excavation and removal of contaminated soils; transport of contaminated soils to an off-site treatment facility; and backfilling of the site with clean soils. The site encompasses an area of approximately 8.5 acres, of which approximately 99,000 square feet (approximately 2.5 acres) will be excavated. The excavation depths range from approximately 1 to 6 feet below ground surface (bgs). The average depth of soils to be excavated is 4 feet bgs. The total amount of excavated soils is expected to be approximately 21,000 tons or 15,000 cubic yards. This would require approximately 840 truckloads. The proposed project would be temporary, lasting approximately 3 to 4 months. Once the contaminated soil is excavated, confirmation sampling will be conducted to determine if additional excavation is required. Following the positive results, the excavated area will be backfilled with clean soils to be hauled in from a nearby quarry, and the site would be restored to near existing conditions. The hauling operation is estimated to be completed in approximately 25-30 working days, with approximately 80 truck-trips of contaminated and clean soils entering and exiting the site daily.	NOD

2004082009	Furtado Final Map Subdivision, FMS-04-04/FMS-04-05 Humboldt County Planning Department --Humboldt Final Map Subdivision of a 3.2 acre parcel for residential development into 15 lots. The project features a 0.62 acre parcel to be used as a stormwater detention area. A Special Permit is required for development of the detention basin. The project includes a zone boundary interpretation to make the R-1/WR zone boundary coincide with the parcel boundary. The parcels are to be served by community water and sewer.	NOD	
2004082009	Furtado Final Map Subdivision, FMS-04-04/FMS-04-05 Humboldt County Planning Department --Humboldt Final Map Subdivision of a 1.8+/- acre parcel for professional office and multi-family residential uses into 5 lots. Lots 1 through 3 are to be developed with professional office buildings of 4,800 square feet, 4,000 square feet, and 2,912 square feet respectively. Lots 4 and 5 are each to be developed with two 4-plexes. One of the 4-plexes on each lot will have one bedroom units and the other will have 2 bedroom units. Drainage from the subdivision will be directed to a stormwater detention area on APN 509-191-26 to be developed as part of FMS-04-04. The parcels are to be served by community water and sewer.	NOD	
2004082012	Mack Special Permit (SP-03-92) Humboldt Community Services District Ferndale--Humboldt A Special Permit to reduce the Streamside Management Area (SMA) of Williams Creek for the construction of a residential garage. As a perennial waterway, Williams Creek has an SMA of 100' from the stream transition line. The application seeks to reduce that setback to +/- 20' to allow a 900 sf detached garage to be built in a very limited area on the +/- 1 acre parcel. The entire parcel and all of its existing development is within the Williams Creek SMA. The existing residence is served by on-site water and sewage disposal. A Biological Report was submitted including mitigations to decrease impacts to creek health and habitat.	NOD	
2004082079	North Park Estates Final Map Subdivision Humboldt Community Services District --Humboldt A Final Map Subdivision of an approximate 5-acre parcel into 29 residential lots ranging from 5,000 to 9,075 square feet. The parcels will be served by community water and sewer, and accessed via the proposed North Park Lane and Labrador Lane from McKinleyville Avenue. The subdivision requires an exception to road width standards and lot frontage requirements to allow for flag lot configuration. The subdivision proposes removal of two structures, places an existing single family residence onto Lot 29 and requires relocation of the existing garage on Lot 29 to address setback requirements. The subdivision proposes an above-ground detention facility for stormwater runoff on Lot 29. Street Name Assignments of "Labrador Lane" and "North Park Lane" are proposed.	NOD

2004108070	CDP 04-46 - Klosterman Addition Carlsbad, City of Carlsbad--San Diego 336 square foot addition to an existing single-family residence.	NOE	
2004108071	Sale of Surplus Government Real Property Channel Islands Beach Community Services Department --Ventura The purpose and nature of the project is the sale of two lots which have been determined by the Board of Directors to be surplus property. The beneficiaries of the project will be the constituents of the Channel Island Beach Community Services District.	NOE	
2004108072	Plant #27 Well Rehabilitation Project East Valley Water District San Bernardino--San Bernardino East Valley Water District (EVWD) owns a groundwater production well at its Plant #27 site. A recent videolog of the well casing revealed corrosion of the casing and areas where the casing appears to be crumbling. EVWD is proposing to clean the well, install a new casing with new gravel lining, and install a new pump and motor on the well. Historically, the Plant #27 well has produced up to 800 gallons per minute (gpm). It is EVWD's goal to produce about 700 gpm from the rehabilitated well. The purpose of the project is to maintain reliable water supplies for the EVWD system.	NOE	
2004108074	Municipal Service Review (MSR) for the City of Modesto Stanislaus County Local Agency Formation Commission Modesto--Stanislaus A Municipal Service Review (MSR) has been prepared for the City of Modesto, which is a full-service city providing urban services within its corporate limits. The MSR evaluates the public services provided by the City (e.g., water, sewer, police and fire protection) and provides the information base for updating the City's Sphere of Influence. The Corese-Knox-Hertzberg Act of 2000 calls for a Municipal Service Review to be completed prior to or concurrent with a Sphere of Influence (SOI) Update.	NOE	
2004108075	Volgelzang As-Built Agricultural Reservoir Fish and Game Santa Barbara Solvang--Santa Barbara Construction of a spillway pipeline extending from the existing reservoir to the adjacent drainage, with an energy dissipation structure of 36 sq. ft., consisting of ungrouted rock.	NOE

2004108090	Time Critical Removal Action, Stockpile B, IR Site 9, Naval Base Ventura County, Construction Battalion Center, Port Hueneme Toxic Substances Control, Department of, Office of Military Facilities Port Hueneme--Ventura The Navy will conduct an interim removal action pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) to eliminate the potential for migration of hazardous contaminants and exposure to contaminated soil from a stockpile at Site 9. Site 9 currently is an unpaved open lot, about 500 feet by 750 feet, and is surrounded by 4 foot high soil berms. It was used for trash burning, fire fighting training, and solid waste transfer station between the 1950s and 1994 and has been left unused since then. The environmental investigation for other parts of Site 9 is ongoing.	NOE

<u>Documents Received on Tuesday, October 05, 2004</u>			
2004108076	Transfer of Coverage to El Dorado County (Cascade Investments / McDougall) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 290 SF of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2004108086	Group Camp Restroom Roof Replacement Parks and Recreation, Department of --Monterey Replace wood shingle roof with composition shingles at the non-historic restroom in the group camp area of Pfeiffer Big Sur State Park. The project would repair the roof to prevent leaking, replace missing and disintegrating shingles and improve fire protection.	NOE	
2004108087	Relocate Depot Park Directional Sign Parks and Recreation, Department of --Sonoma Relocate the existing Depot Park information sign to the center island of the Casa Grande Parking Lot and install a new park rules and regulations sign at Sonoma State Historic Park. Installation of the relocated sign will use existing signposts; installation of the new sign will use a single 4" x 4" x 10' synthetic post in one of the vacated signpost holes. In the event that previously undocumented cultural resources are encountered during project implementation, work within the immediate vicinity of the find will be temporarily halted or diverted until a DPR-qualified cultural resource specialist has evaluated the find and implemented appropriate disposition of the artifact(s). Project supports park operations.	NOE	
2004108088	Paved Orchard Road Repairs Parks and Recreation, Department of --Sonoma Project involves excavation and stabilization of imminently slumping and eventually failing paved Orchard Road within the Sonoma Developmental Center acquisition to Jack London State Historic Park. Project will excavate irregular paving and slumping material to a depth of 3-4 feet deep, backfill with geotechnical materials to stabilize the road, and repave necessary sections. All surveys, designs and plans to be reviewed by State Park's paved road engineers. Work scope will focus on the area immediately slumping which is directly above the old development center landfill, but repaving will occur in other locations as necessary. This project will also provide a stable foundation to stage a crane or excavator or other heavy equipment necessary to remove non-historic landfill materials that were placed in the area without permits prior to State Park acquisition. Project supports continued use and maintenance.	NOE	
2004108089	Install Telephone Line at Howard House, Marshall Gold Discovery State Historic Park Parks and Recreation, Department of --El Dorado The project will install a telephone line into the Howard House at Marshall Gold Discovery State Historic Park. The purpose of the project is to allow the concessionaire that uses the structure to process credit card transactions. The building is a historic structure. The project will involve hand digging a shallow	NOE

2004101026	City Place Apartments Orange, City of Orange--Orange The project calls for the construction of four 4-story apartment buildings that would include 275 apartment units, including 10 live/work units. The apartment buildings would wrap around a 6-story parking garage for residents and visitors of the apartment complex. A multi-level parking structure would also be constructed for use by the adjacent Double Tree Hotel.	NOP	11/04/2004
2004051053	Whittaker-Bermite Facility Operable Unit 1, Remedial Action Plan Department of Toxic Substances Control Santa Clarita--Los Angeles The proposed project consists of the remediation of contaminated soil through implementation of the Remedial Action Plan (RAP) for Operable Unit 1 (OU1) at the former Whittaker-Bermite facility, in the City of Santa Clarita, California (project site). Remediation of contaminated soil areas for Chemicals of Potential Concern (COPCs) would consist of a combination of in-situ vapor extraction (SVE) in combination with remedial excavation. Handling of excavated soils would be accomplished by combinations of off-site disposal, ex-situ anaerobic bioremediation, ex-situ soil washing, chemical oxidation, and institutional controls.	Neg	11/04/2004
2004101022	GPA #8, ZC #35, Map 101-24 Kern County Planning Department Bakersfield--Kern If approved, the project will amend the Western Rosedale Specific Plan from SR (Suburban Residential) to HMR (High Medium Residential) on approximately 7 acres and change the zone classification from E(1/4)CL to R-2-PD (Medium Residential-Precise Development Plan) on the entire project site (14.93 acres). The applicant anticipates 150 multifamily dwelling units to be developed.	Neg	11/04/2004
2004101023	Mininni Minor Use Permit San Luis Obispo County Cambria--San Luis Obispo Proposal by Michael and Shelly Mininni for a Minor Use Permit/Coastal Development Permit to remodel/add-on to an existing 730 square foot single family residence with an existing detached 536 square foot garage by: 1. Remodeling the existing detached garage and converting it into a new single family residence with attached garage (to total 2,319 square feet of gross structural area after completion). 2. Remodel the existing 730 square foot single family residence and convert it into a 357 square foot guesthouse with 373 square feet of unconditioned, non-habitable storage space below. The proposed project will add approximately 1,783 square feet of gross structural area which brings the size total for gross structural area to 3,049 square feet. The project will also add approximately 664 square feet of building footprint, which brings the site total footprint to 1,930 square feet. Total new ground disturbance is approximately 666 square feet after completion. The project is located at 1661 St. James Road, on the southern corner of the intersection of St. James Road and St. Thomas Avenue in the community of Cambria in the North Coast Planning Area. 	Game is issuing Streambed Alteration Agreement No. 1600-2003-5156-3 pursuant to Fish and Game Code 1602.		
2004108093	Stream Alteration Agreement No. 2004-0101-R4 Hickman Bridge Pier Maintenance Fish & Game #4 Waterford--Stanislaus Stanislaus County proposes the following scope of work. Implement scour countermeasure for Piers 4, 5, and 6 of the Hickman Bridge necessary for 9,000 and 15,000 cubic feet per second (CFS) flows. Countermeasures consist of placing concrete tetrahedrons in a single layer extending approximately 20 feet in each direction around each pier (approximately 12,000 SF). Excavate approximately 550 cubic yards of material below the existing water level (wet) and 700 cubic yards of material above the existing water level (dry) of place the scour countermeasures. Place approximately 280 cubic yards of washed river-run gravel (sized between 1/4 inch and 4 inches) and associated filter fabric in approximately 0.25 acre of the Tuolumne River to create a low-water crossing for equipment and materials. Revegetate the disturbed area.	NOE	
2004108094	Butt Valley H.B. Valve Plunge Pool Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Plumas Erosion control at a powerhouse and valve plunge pool. This project is strictly limited to placement of boulders to control accelerated erosion at the plunge pool and designated portion of the creek bank. The exemption does not apply to or cover the FERC license for this facility.	NOE	
2004108095	Tyco, Electronics, Inc. Interim Remedial Measure Approval Toxic Substances Control, Standardized Permitting & Corrective Action Branch, Department o Menlo Park--San Mateo This project is the approval of the "Final Workplan Soil Removal/Disposal, Off-Site Storm Water Swale Area, Railroad Right-of-Way South of the Tyco Facility's East End, 300 Constitution Drive, Menlo Park, California" (Work Plan), dated September 10, 2004. The activities proposed include: - Using a backhoe to excavate less than 200 cubic yards of soil contaminated with Poly Chlorinated Biphenyls. - Loading the excavated soil onto trucks for offsite transport of the soil to an approved disposal facility. - Confirmation sampling of soils collected from the bottom and side of the excavation area for analysis. - Backfill and restoration of the excavation area.	NOE	
2004108096	Mill Creek Property Forest Restoration - Year 2 Parks and Recreation, Department of --Del Norte This project is the second year of experimental thinning of formerly managed timber stands at the Mill Creek property. Purpose of thinning is to prevent stand stagnation and reduced vigor due to competition, accelerate development of old growth forest structure and function, and shift tree dominance to redwoods in stands that had been clear-cut and densely replanted with commercially marketable species. Objectives are to treat a larger area of approximately 400 acres, and develop protocols that are cost effective while reasonably accurate. Crews using chain saws will cut trees, using a variable spacing, in order to reduce density to between 100 and 170 trees per acre. No trees larger than 12 inches in diameter	NOE

2004101029	City of Shafter General Plan Update Program EIR Shafter, City of Shafter--Kern The City of Shafter is in the process of a comprehensive revision and update of the Shafter General Plan. The General Plan is the City's most important statement regarding its ultimate physical, economic, and cultural development within the given time period and will be used by officials and others to guide decisions governing development and management of human and natural resources. The General Plan uses text, maps, and illustrations to document the organization of physical, environmental, economic, and social activities desired by the City's residents in order to create and maintain a vibrant community in which all residents enjoy a wide range of employment, shopping, and recreational opportunities. The General Plan addresses immediate and long-term issues including traffic, expansion of housing, commercial, and industrial opportunities, provision of public services, and environmental constraints. The goal of the General Plan is to provide a consistent policy guide to the management of the community's future physical, social, environmental, and economic environments.	NOP	11/05/2004
2004101031	Candlelight Villas East San Diego, City of --San Diego Community Plan Amendment (CPA), Precise Plan Amendment (PPA), Planned Development Permit (PDP), Tentative Map (TM) and Site Development Permit (SDP) to allow for the creation of four lots within the existing Santee Investments Precise Plan. The project consists of a development proposal for 469 multifamily attached dwelling units on 23.0 acres and open space on 2.3 acres. Within the residential areas, two recreation centers and one tot lot would be provided. The proposed development would consist of two- and three-story units, containing	NOP	11/05/2004

2004102025	East William Street Residential Project San Jose, City of San Jose--Santa Clara Planned Development Rezoning from LI Light Industrial Zoning District to A(PD) Planned Development Zoning District and subsequent permits to allow up to 105 single-family detached residential units and a new public street 44 to 49 feet in width on a 13.06 gross acre site located in the UPRR right-of-way, on the south side of E. William Street approximately 400 feet west of McLaughlin Avenue.	Neg	11/05/2004
2002071074	Widening of North Chestnut Avenue between East Shaw & East Bullard Avenue Fresno, City of Fresno--Fresno The project is the widening of N. Chestnut Avenue between E. Shaw and E. Bullard Avenues in the City of Fresno. The project consists of the widening of the existing two-lane road to provide two traffic lanes and a bicycle lane in each direction of travel on N. Chestnut Avenue. The project will include a center two-way left turn lane between E. Shaw and E. Barstow Avenues. Separate left and right turn lanes would be provided at the intersections of Shaw / Chestnut, Barstow / Chestnut and Bullard / Chestnut, including southbound dual left turn lanes at Shaw / Chestnut. A traffic signal would be installed at the intersection of E. Bartstow and N. Chestnut Avenues. The proposed project would backfill the existing Fresno Irrigation District canal on the west side of N. Chestnut Avenue south of E. Bartstow Avenue and would include the under grounding of existing overhead utilities between E. Shaw and E. Bullard Avenues. Street lights, storm drains, curb and gutter and wheelchair ramps would be installed by the project. The street widening project includes the removal of 23 mature eucalyptus trees from the west side of N. Chestnut Avenue and one row (54 trees) of CSU Fresno walnut trees on the east side of N. Chestnut Avenue.	NOD	
2002082043	Martin Slough Interceptor Project Eureka, City of Eureka--Humboldt The Martin Slough Interceptor Project is proposed in order to increase the reliability of the City's existing wastewater collection system for avoiding wastewater overflows in the project area, as well as increasing the cost-effectiveness of the system's operations. The proposed project generally includes elements in three major segments: (1) a collection system for wastewater from a new "interceptor" pipeline, all operating primarily under the influence of gravity; (2) a new pump station, located at Pine Hill Road and Myers Avenue; and (3) a new pressure sewer line (or "force main") that will connect the new pump station to the existing wastewater treatment facility. The new collection system and force main elements will essentially all be located below the ground surface. The pump station will be a relatively small structure, on a built-up site approximately 50 feet by 60 feet, which will include landscaping and parking areas for maintenance vehicles.	NOD	
2003031112	Desert Cove Golf Course Cathedral City Cathedral City--Riverside California Department of Fish and Game is executing a Lake or Streambed Alteration Agreement (SAA # 1600-2004-0074-R6) pursuant to Section 1602 of the Fish and Game Code to the project applicant, Palm Canyon, LLC. The proposed project consists of the construction of an 18-hole public golf course and driving range. The project will impact 167.87 acres (37.5 acres of desert dry wash woodland habitat and 130.37 acres of desert scrub wash habitat) within the	NOD

	channels. The project proponent will provide 112.5 acres of desert dry wash woodland and 65.37 acres of desert scrub habitat as mitigation.		
2004021088	La Cresta Tanksite Grading Permit, L 14385, Log No. 03-14-008 San Diego County Department of Planning and Land Use --San Diego The proposal is an application for grading permit to allow future residential development. The project proposes grading for the construction of 3 detached, single-family homes, on 3 existing parcels, ranging 4 to 13-acres, located northwest of the existing Crest water tanks and the adjacent microwave tower in the Crest-Dehesa Community Planning Area. Building pads will range from 7,300 to 10,000 square feet. The 2 homes planned for immediate construction will be predominately single level, Spanish ranch/adobe style architecture, with possibly small second stories, and a maximum height of 25 feet. The project's grading will be contained on approximately 2.6 acres, and will involve an estimated 12,200 cubic yards of cut and 12,000 cubic yards of fill, including a balance area at the driveway entrance. The maximum cut slope ratio will be 1:1 for minor slopes and 1.5:1 for major slopes, with a maximum height of 20 feet. The maximum fill slope ratio will be 2:1, with a maximum height of 25 feet. Blasting is anticipated on all three lots, and some isolated areas of the driveway, as the site contains many granite rock outcroppings.	NOD

2004061032	John Laing Homes Project Port Hueneme, City of Port Hueneme--Ventura The project involves the development of 68 single family residences and 86 attached multi-family residences on about 17 acres. A portion of the site is currently vacant and a portion is occupied by industrial uses.	EIR	11/22/2004
2004081095	Community School No. 1 Orange County Department of Education Fountain Valley--Orange The proposed project involves the construction and operation of Community School No. 1 for the Orange County Department of Education (OCDE). The proposed project would consolidate two existing OCDE programs within the City of Fountain Valley: Renaissance Lyceum and the Fountain Valley Education Center/Operation Success II. These programs are currently operated out of commercial storefronts in strip malls, and would be relocated to one central school site within the City of Fountain Valley. The proposed project site is 5.8 acres located on the northern corner of Harbor Boulevard and Lilac Avenue and will include 5 buildings with a total floor area of 43,349 square feet. Community School No. 1 would serve approximately 376 students, with a maximum student capacity not to exceed 594 students. Community School No. 1 would not be operated as a regional school facility, but rather is intended to serve students from within the City of Fountain Valley and the immediate surrounding communities. The school would operate on a staggered schedule, with the average attendance time per student of approximately four hours per day. The school program does not allow students to drive to school, so a portion of all students will use public transportation to access the site. Students not utilizing public transportation would walk, bicycle, or be transported to the school by a responsible adult. Site access will be gained from Harbor Boulevard with one "entry only," and one "exit only" driveway. A 66-space parking area will be located at the northern edge of the proposed project site, and will serve staff and visitors only.	EIR	11/22/2004

2003042070	SPA 2004-01 - Diablo Grande Sewer Line and Patterson Waste Water Treatment Center Stanislaus County Patterson--Stanislaus Request to make a minor modification to the Diablo Specific Plan to allow for on- or off-site wastewater treatment including construction of a sewer line from Diablo Grande to the City of Patterson Wastewater Treatment Facility. A gravity main would be installed from Diablo Grande and installed within existing road rights-of-way of Diablo Grande Parkway, Oak Flat Road and Ward Avenue where it will connect to the existing Patterson Sewer System at the corner of Sperry Avenue and Ward Avenue. Stanislaus County will act as a responsible agency under CEQA in connection with the City of Patterson's Final EIR, and the Western Hills Water District Addendum. As a responsible agency, the County is proposing to make findings as required pursuant to CEQA Guidelines sections 15096, 15091, and 15093 and to adopt all appropriate mitigation measures.	CON	10/25/2004
2004102036	Special Use Permit S04-24 / Abel Ranch Truck Storage El Dorado County Planning Department --El Dorado 5-10, 24-foot refrigeration and water trucks to be dispatched off-site for emergency service support. Vehicles to be stored and maintained on-site in a 7,500 SF structure.	CON	11/10/2004
2003062165	Boulevard Plan, A Specific Plan for the Auburn Boulevard Corridor from Sylvan Corners to the City Limits, Citrus Heights Citrus Heights, City of Citrus Heights--Sacramento The Boulevard Plan encompasses approximately 460 acres along the Auburn Boulevard corridor between the City of Citrus Heights city limits on the north and Sylvan Corners on the south, and extends approximately 1,000 feet east and west of Auburn Boulevard. The Plan focuses primarily on the parcels and commercial and residential uses. The Plan focuses primarily on the parcels and commercial and residential uses (approx. 112 acres) that front on Auburn Boulevard. The Boulevard Plan includes Concepts, Goals and Principles to establish formal policies regarding land use, circulation and community design and presents, key concepts of the plan; Development Standards that present specific guidance for public and private development; Guidelines for making design changes along the corridor in each of four districts; and an implementation Section that describes how the Plan's policies and guidelines are to be put into place. The purpose of The Boulevard Plan is to improve the corridor's image and commercial competitiveness in the region; improve its function as a transportation facility serving adjacent land uses and provide for better connections with the neighborhoods bordering the corridor. 2004102039	Chapman Coastal Development Permit and Special Permit (CDP-04-07/SP-03-05) to Remedy a Major Veg. Removal and Fill Violation Humboldt County Community Development Services --Humboldt An after-the-fact Coastal Development Permit for Major Vegetation Removal per Section 313-64.1, HCC, which included the removal of roughly 12,000 square feet canopy of conifers. The tree removal occurred outside the SMA of a small intermittent drainage on the property, but <50 cubic yards of grading and fill did occur within the 50' SMA setback. The work within the SMA requires a Special Permit. A Biological Report has been prepared and submitted with recommended mitigation measures. The 1.42-acre parcel is currently vacant. The work that occurred in the late '90s without the benefit of local agency review was intended to clear the area adjacent to the owner's residence for views and landscaping purposes.	Neg	11/10/2004
2004102040	Arzner Minor Subdivision Humboldt County Community Development Services --Humboldt Subdivision of a 0.77 +/- acre parcel into two parcels of 15,354 square feet (net) and 17,959 square feet (net). The parcel is currently developed with two nonconforming residences. The subdivision seeks to locate one residence onto each new parcel. The subdivision will also correct the lines of occupation that have, over the years, been incorrectly developed over. The parcel is in the Coastal Zone and will continue to be served with sewer and water from the Manila Community Services District. The Special Permit is required for an exception to the lot depth requirement per Section 313-99.1.1.2, HCC.	Neg	11/10/2004

	SF medical office buildings and a senior housing facility with up to 80 units located on approximately 37.2 acres.		
2003111050	Village 7 Sectional Planning Area Plan and Tentative Maps Draft EIR Chula Vista, City of Chula Vista--San Diego The Village 7 SPA Plan and TMs project is a plan of development for the McMillin Otay Ranch, LLC and Otay Project LP ownerships within Village 7 of the Otay Ranch GDP area. The Village 7 SPA Plan is an implementation document that establishes design criteria and specifies the type and amount of development permitted within the project site. The Village 7 SPA Plan allows for a maximum of 756 single-family dwelling units and 448 multi-family dwelling units, a public park, community purpose facilities, an elementary school site, a high school site, a high school site, open space, and roadways. The SPA Plan also addresses off-site roads and infrastructure improvements required to develop the plan area. The project also includes TMs for the McMillin Otay Ranch, LLC and Otay Project LP ownerships. The McMillin Otay Ranch TM allows for development of 310 single-family units, 448 multi-family units, a neighborhood park, community purpose facility, an elementary school site, a high school site, and an off-site connector road. The Otay Project LP TM would allow for development of 375 single-family units and community purpose facilities.	NOD	
2004022066	Guerneville River Park Sonoma County Regional Parks --Sonoma The project consists of the three-phased development of a primarily passive type of park facility including paved (ADA compliant) and compacted gravel trails, group and family picnic areas, small outdoor stage, small craft boat portage, restroom building, open grass areas, nature study areas and vehicle access and parking, amenities and appurtenances.	NOD	
2004061058	22nd DAA Multipurpose and Livestock Replacement Barns 22nd District Agricultural Association Del Mar--San Diego The proposed project is the replacement of three existing barns known as Barn X (18,720 SF), Barn Y (18,770 SF), Poultry Barn (27,920 SF), with two new barns identified as the multi-purpose barn (41,133 SF) and the livestock barn (41,203 SF). The replacement barns will be located in the same general location as the existing barns, centrally located on the Del Mar Fairgrounds.	NOD	
2004062023	Kill Kare Inc. (Checkerboard) Forestry and Fire Protection, Department of Calistoga--Napa The proposed project is a 12.3 acre timber harvest and conversion to vineyard. The 12.3 acres is part of a larger 103 acre parcel. The approval of a Timberland Conversion Permit by CDF exempts the landowner from the restocking requirements of the Forest Practice Rules following timber operations. An erosion control plan was prepared by a Registered Civil Engineer and meets Napa County standards.	NOD

2004062053	Sacramento River Bank Protection Project, Sacramento River Mile 56.7 Left Reclamation Board Sacramento--Sacramento Authorize the construction and maintenance of approximately 1,600 lineal feet of bank protection on the left bank of the Sacramento River located at RM 56.7L.	NOD	
2004072004	Extreme Ozone Attainment Demonstration Plan San Joaquin Valley Air Pollution Control District San Joaquin--Fresno, Kings, Madera, Merced, Tulare, Kern The San Joaquin Valley Air Basin (SJVAVB) does not currently meet federal 1-hour ambient air quality standards for the pollutant ozone, which is a primary component of smog. At levels above the federal standards of 0.12 ppm, ozone adversely affects public health, diminishes the production and air quality of many agricultural crops, reduces visibility, degrades man-made materials, and damages native and ornamental vegetation. The Draft Extreme OADP describes the factors of contributing to the SJVAB's persistent 1-hour air quality problems, quantifies air pollutant emissions that cause ozone to form in the SJVAB, identifies control measures (past, present, and future) needed to reduce these emissions, and projects future air quality based on implementation of these controls. In addition, the Draft Extreme OADP fulfills state requirements for the California Clean Air Act Plan Triennial Progress Report and Plan Revision, and fulfills federal requirements for demonstrating rate of progress in meeting emissions reduction targets.	NOD	
2004081184	Kern County Water Agency Improvement District No. 4 Water Purification Plant Expansion Kern County Water Agency Bakersfield--Kern Construction of facilities to expand existing water purification plant treated water capacity from a peaking of 45 MGD to 90 MGD.	NOD

2002062082	City of Elk Grove General Plan EIR Elk Grove, City of Elk Grove--Sacramento The project would result in new General Plan designations for the eight project sites. Sites 5 & 41 would be designated Commercial/Office/ Multi-family; sites 4, 24, & 40 Commercial; sites 21 & 29 Low Density Residential; site A High Density Residential.	EIR	11/29/2004
2003042121	Upton Highlands Residential Project (Z-02-03/TPM-02-02) Siskiyou County Mount Shasta--Siskiyou The applicants, Gem Investments, propose a Zone Change and Vesting Subdivision Map to create a 38-lot subdivision northeast of the City of Mt. Shasta. The proposed project includes rezoning the subject property from Light Industrial (M-M) and Neighborhood Commercial (C-U) to Single-Family Residential (Res-1) and Open Space (O). Proposed lots range in size from 2.50 to 3.57 acres. The subdivision is to be developed in one phase and would have two access points to Everett Memorial Highway. Roads are proposed to be private. The subdivision id proposed to be a gated community. The total project consists of 116.03 acres. Approximately 13 acres are proposed to be zoned Open Space for a common area greenway to be used as open space for drainage and storm water detention purposes. Water and sewage will be provided by private wells and on-site septic systems. A fire suppression system is planned, including fire hydrants with water provided by wells.	EIR	11/29/2004
2004102045	Bidwell Park Master Management Plan Update Chico, City of Chico--Butte The proposed project is an update of the existing Bidwell Master Management Plan. The Plan will establish uses and management goals, reflect new rules and regulations, resolve planning issues, and provide opportunities for public input.	NOP	11/12/2004

	parking area (adjacent to Golden State Blvd.) for 28 spaces for cars, 61 spaces for tractor/trailer, and 15 spaces for tractor and dual trailer and remodel two office/warehouse building totaling approximately 5,000 square feet. The second phase is to pace area to the west for 14 car parking spaces, 32 tractor/trailer spaces and 44 tractor and dual trailer spaces and remodel the existing 1,200 square foot building. The third phase is to pace the area to the far west of the property and pave a parking area for 3 cars, 61 tractor/trailer and 25 spaces for tractor and dual trailer.		
2004052139	Rezone App #2004-05, Parcel Map App #2004-14 - Kelly Business Park Stanislaus County --Stanislaus Request to rezone 4.35 gross acres from A-2 (General Agriculture) to PD (Planned Development) to allow a 28,095 sf commercial shell building for designated uses and a 6,000 sf gymnasium/multi-purpose building for use by an existing church. Proposed Parcel Map Application No. 2004-14 would separate the uses on to 2.0 and 1.48 net acre parcels.	Neg	11/12/2004
2004101050	Tentative Tract Map 04-072 (17255) and Planned Unit Development PUD-04-002 Victorville, City of Victorville--San Bernardino A planned unit development (PUD) to allow 136 units in 34 buildings in accordance with the PUD standards. The subdivision is a tentative tract map of 8 acres for 34 lots with the remaining areas to e developed as private streets and common areas.	Neg	11/12/2004
2004101051	The Village at the Palms (PD/ER/ARC 163-02) San Luis Obispo, City of San Luis Obispo--San Luis Obispo This project is a request to amend the property's Planned Development zoning to allow additional units, amending the overall density of the site and allowing the construction of a new 3-story, 10-unit senior apartment building (deed restricted age 62 or older) and a two-story parking structure. The new apartments would be located within the existing parking area just east of Old Garden Creek and a new two story parking structure to replace lost parking spaces would be constructed on top of the existing parking lot located west of the creek. A creek setback exception has been requested in order to allow pedestrian pathways and a footbridge. The subject property is one of three parcels of a senior housing campus at the corner of Broad and Ramona Streets. A Planned Development (PD) zoning district was originally established at this site in order to allow a student housing project. In 1997, this PD was amended to allow the senior housing project that exists today. This application proposes amendments to allow additional site density, new construction and new parking within the senior apartment planned development.	Neg	11/12/2004
2004101052	TAMC Call Box Amendment Monterey County --Monterey Amendment to relocate an approved call box site from Post Mile 557 to Post Mile 4.7 along Highway 1 Big Sur Coast Area with the critical viewable.	Neg	11/12/2004

2003112001	U&S Street In-Line Storage Project Sacramento, City of Sacramento--Sacramento The Proposed Project/Action consists of constructing in-line storage capacity within the City's existing combined sewer system, and modifying the Sump 1A pumps. Specifically, approximately 800 feet of 54-inch Combined Sewer (CS) pipeline would be installed approximately 5 feet below surface, parallel to the existing combined sewer pipeline on S Street between 5th and 7th. Additionally, approximately 1,350 feet of 84-inch diameter pipe would be installed in U Street, 5-8 feet below the surface, parallel to the existing 84-inch CS. This pipe would extend from 3rd Street, where the microtunneled pipe ended to 5th Street. Concrete structures will be constructed at the connection to the existing sump 1A wet well, and at the 5th / U Street and at the 5th / S Street intersections. Finally, the installation of approximately 550 linear feet of 84-inch OD sewer would require microtunnelling beneath I-5.	NOD	
2004082075	Davlin / Diehl Minor Subdivision - MS0501C Del Norte County Planning Crescent City--Del Norte Minor Subdivision of a 0.55-acre parcel into 2 parcels of 7,200 SF and one at 9,600 SF.	NOD

2004108228	Parcel Map No. 31403 Riverside County Transportation & Land Management Agency --Riverside Tentative Parcel Map No. 31403 is a proposal to subdivide 2.65 acres into two residential lots with a minimum lot size of one acre.	NOE	
2004108229	Replace Gutter on Toscano Hotel Parks and Recreation, Department of --Sonoma Perform stabilization of Toscano Hotel at Sonoma State Historic park by replacing gutter and other failed materials in the vicinity of the wooden front porch roof. The replacement gutter assembly will retain the wooden exterior. This will be either replaced in-kind or with a wood gutter replacement. Specific replacement materials to be reviewed by District Historian prior to finalization. No excavation will be required. Project protects public health and safety and a cultural resource.	NOE	
2004108230	Repair Damaged Paver Walkway Parks and Recreation, Department of --Sonoma Place pavers on damaged walkway, and on previously planted areas, in front of 20 E Spain Street, Sonoma State Historic Park. Ground disturbance to be limited to 4-6 inches which will occur entirely within a layer of previously placed fill. No historic or archaeological resources to be impacted. Project will improve aesthetics and visitor safety by providing a smooth walking surface on the walkway.	NOE	
2004108231	Replace Stair Treads and Handrails Parks and Recreation, Department of --Sonoma Perform stabilization of the western staircase at the Sonoma Barracks of Sonoma State Historic Park. No excavation will be required. Replacement of stair treads and observed dry rotted materials to be in-kind and will visually match existing building materials. Project protects public health and safety and a cultural resource.	NOE	
2004108232	Sand Hill Bluff Acquisition and Agricultural Lease Parks and Recreation, Department of Santa Cruz--Santa Cruz Acquisition of 79 acres of coastal property through a joint state and federal effort to protect ocean fronting lands adjoining the 7000-acre Coast Dairies property. The property will remain in its existing natural condition and will allow for the continuation of an existing agricultural lease over approximately 36 acres of the 79 acre to be acquired by the Department.	NOE

1989071210	GPA 86-312, CUP 2556 Los Angeles County Los Angeles, City of--LOS ANGELES Addendum to the Certified EIR for the proposed Conditional Use Permit No. 86-312-(5). The Sunshine Canyon Landfill is located within the County Unincorporated and City of Los Angeles jurisdictions. The landfill is currently in operation on the County portion of the property. The proposed project will adjust the daily solid waste intake from the current level of 6,600 tons per day to 12,100 tons per day; weekly intake is proposed to increase from the current level of 36,000 tons per week to 66,000 tons per week. The working face area of the landfill is proposed to change from two (2) to three (3) acres to a total of approximately 10 acres. Modifications to Conditional Use Permit No. 86-312-(5) update conditions associated with the permit for consistency with conditions approved by the City of Los Angeles.	EIR	11/29/2004
2004081194	Compton Towne Center EIR Compton, City of Compton--Los Angeles The proposed project involves the construction of a mixed-use commercial and residential development that includes a number of restaurant pads, a possible fitness center, and a potential theater complex. The commercial floor area of the alternatives range from 408,651 square feet to 509,666 square feet. A theater component consisting of 65,000 square feet is also contemplated for each of the alternatives. The residential development being contemplated will range from 38 units to 258 residential units, depending on the alternative ultimately selected.	EIR	11/29/2004
2003081142	Marina Coast Water District Regional Urban Water Augmentation Project Marina Coast Water District Marina, Seaside, Monterey, San City, Del Rey Oaks--Monterey The Regional Water Augmentation Project proposes to provide an additional water supply of 2,400 acre-feet per year (AFY) for the Ord Community area (also known as the former Fort Ord military base) as identified in the Fort Ord Reuse Plan (FORP). In addition to this 2,400 AFY quantity, 300 AFY of water is being considered to supply the Monterey Peninsula (defined as California-American Water Company's Monterey Division service area) and 300 AFY of water is being considered to supply MCWD's other service areas. The two supply alternatives proposed are a new seawater desalination facility at the existing MCWD seawater desalination plant site and a recycled water project with seasonal surface storage at a location within the Armstrong Ranch property.	FIN	
2004101058	Otay Ranch Preserve and Resort Community San Diego County Department of Planning and Land Use Chula Vista--San Diego Resort hotel and associated facilities, a mix of single- and multi-family residential neighborhoods, an elementary school, fire station, open space, and park and recreational facilities.	NOP	11/12/2004
2004101059	SDSU (San Diego State University) 2005 Campus Master Plan Revision California State University Trustees San Diego--San Diego The proposed project is the adoption and subsequent implementation of the SDSU 2005 Campus Master Plan Revision. The Master Plan Revision will enable SDSU to meet projected increases in student demand for higher education, as well as further enhance SDSU's status as a premier undergraduate, graduate and	NOP	11/12/2004

2004101056	Rosen's Electrical Equipment Co. Remedial Action Plan Toxic Substances Control, Department of Pico Rivera--Los Angeles The project involves removal of contaminated soils, installation of an impermeable surface cap and implementation of institutional controls placed on the property. Chemicals of Potential Concer (COPC) include: polychlorinated biphenyls (PCB's), volatile organic compounds (VOC's) including chlorobenzenes, total petroleum hydrocarbons (THP) dioxins/furans, and metals. This project involves approximately 4,000 cubic yards total of contaminated soils and will take an estimated sixteen weeks to complete. The areas that are subject to remedial action for this project include the following two parcels: 1. An unpaved area approximately 130 feet by 150 feet (19,500 square feet) located within the southeast quadrant of the REEC Property. Hereafter this area will be referenced as Area of Concern (AOC) #1; and 2. A rectangular area approximately 20 feet by 300 feet (6,000 square feet) located offsite between the railroad tracks and the southern property boundary. Hereafter this area will be referenced as AOC #2.	Neg	11/12/2004
2004101057	Elementary School No. 26 (Sunnymead ES Relocation) Moreno Valley Unified School District Moreno Valley--Riverside Relocate & improve the existing Sunnymead ES. The new school will house approximately 950 K-5 students in its 10.5-AC site. Two existing SF units will be demolished as part of site preparation. 32 permanent and 6 relocatable classrooms will be provided on-site with athletic field, hard courts, lunch shelter, 131 parking spc, & separate bus & parent drop-off. 1998112034	Chico Municipal Airport Master Plan Chico, City of Chico--Butte 1. Extension of the general aviation runway (13R-31L) 1300 feet to the south and 1700 feet to the north, for a total length of 6000 feet, widening to 100 feet, and grading of safety areas at both ends of the extended runway. 2. Expansion of the existing apron by 11.9 acres to the north (800 feet) and 2.5 acres to the south (220 feet). 3. Construction of related new taxiways, existing taxiway extensions and run up coinciding with runway and apron improvements. 4. Construction of a new airport access road extending from Eaton Road northerly to the west side of the Airport to serve both the proposed business-industrial park and aviation facilities, including a bridge crossing of Sycamore Creek, right-of-way acquisition, and utility extension. 5. Phase development of a 164 +/- acre business-industrial park on the west side of the Airport property. 6. Airport fire station expansion and remodeling. 7. Expansion of the Tee Hangar area by 4.4 acres. 8. Expansion of the Airport terminal and related parking. 9. Acquisition of lands to prevent development incompatible with Airport operations. 10. Acquisition of right of way, funding, annexation, design, and other activities required for project implementation.	NOD	
2001021065	University of California Merced Campus University of California Merced--Merced The Corporation Yard Building is designed to contain 17,060 GSF serving two general space types: offices and shops/warehouse space. The project is a one-story pre-fabricated metal clad building with a shed roof. The Corporation Yard Building will share a loading dock with the Logistical Support/Services Building to form a campus support facilities complex. The 0.86-acre site for the Corporation Yard Building is located in the northeast region of the Phase 1 campus, adjacent to the Logistical Support/Services Facility on the southeast and bounded by the Central Plant Building on the southwest, and agriculture grazing land to the north and east. To accommodate the proposed project, the 2001 LRDP has been amended to change the designation of the new Corporation Yard Building site from "Parking to Campus Support." Addendum #5 prepared for the project concludes that the minor revisions to the design and location of the Corporation Yard Building from the facilities described in the Final EIR do not trigger the need for a supplemental or subsequent EIR under CEQA. A 16-inch diameter water transmission main and a 15-inch diameter sewer main will be constructed from their future planned location on Pacheco Boulevard just east of Los Banos Creek approximately 900 feet east of the college campus site, to the southeastern edge of the college campus site. The sewer and water mains will be extended westerly along the southern right-of-way of Pacheco Boulevard. The water and sewers mains will cross the Los Banos Creek, which lies midway along the 900-foot extensions. Both the water and sewer mains will be bored under the creek. A 16-inch diameter water distribution pipeline would then be extended approximately 625 feet northerly to the proposed well site on the college campus site. The well is located approximately 625 feet north of Pacheco Boulevard, west of Los Banos Creek. The well site, known as Well #16 in the City of Los Banos Year 2000 Water Master Plan, will be located on a 6,000 square foot area located in the southeast quadrant of the college campus. It will be approximately 300 feet deep and consist of 16-inch diameter steel casing, and 30-inch diameter steel conductor	Neg	11/16/2004

2004102057	Portable Asphalt Batch Plant at Cool Cave Quarry/Special Use Permit S04-0016 El Dorado County Planning Department --El Dorado Request for a Special Use Permit to allow the placement of a portable hot asphalt batch plant for a period not to exceed 4 years duration. The plant will include a portable lime marination aggregate treatment plant and a portable screening plant to process and recycle milled asphalt concrete. The plant will typically operate from 6:00 p.m. to 6:00 a.m. Sunday through Friday, with occasional daytime operations from 5:00 a.m. to 4:00 p.m. The plant will be in operation between the months of April through October each calendar year. The anticipated production will be a maximum of 3,200 tons of asphalt per day, equating to 128 to 130 truckloads entering and leaving the plant site during the 10 to 12 hours of operation of the asphalt batch plant. Of the trucks entering the quarry, 25 to 30 trucks per day will be carrying asphalt grindings. These trucks will then be loaded with asphalt for the outbound trip. Also, 6 to 7 loads per day of liquid paving per 24-hour period during peak operation times. The 350 truck loads include the truck loads associated with both the asphalt batch plant operation and the aggregate sales operation. The asphalt batch plant will be located on a 2.5 acre portion of the Cool Cave Aggregate Quarry site.	Neg	11/15/2004
2004102058	2004-86 Zoning Amendment and Tentative Parcel Map for Carl E. Albright, Inc. Calaveras County Planning Department Angels Camp--Calaveras A division of land, about 18.57+/- acres, into 3 parcels, ranging in size from 5 to 8+/- acres.	Neg	11/15/2004

1994071005	Extension of Tustin Ranch Road Tustin, City of Tustin--Orange CDFG is executing a Lake and Streambed Alteration Agreement (Agreement) pursuant to Section 1602 (SAA # 1600-2004-0153-R5) of the Fish and Game Code to the project applicant, Mr. David Ristau, Vestar Development. The applicant proposes to alter the streambed and banks to develop approximately 117 acres located in the southeastern portion of the former 1,153 acre MCAS Tustin, near the intersection of Jamboree Road and Barranca Parkway. The proposed retail development will include numerous commercial stores that range widely in size including a multi-screen movie theater. As part of the proposed development, the existing open soft-bottom drainage channels will be replaced with a closed pipe storm drain system that would accommodate 100-year flows. To meet this goal and develop the portion of the base proposed in this project, the current set of drainage channels will need to be removed and the new pipe system installed, resulting in permanent impacts to 6.14 acres of jurisdictional wetland/riparian habitat. Approximately 2137 linear feet of the Barranca Channel will be converted to	NOD
